

OSA-2055-64

28 April 1964

Dear

The following is the text of a message sent to other suppliers in an effort to reduce the cable and telephone traffic now needed to obtain citizenship information:

Experience has shown that in a majority of cases where the Subject of the clearance action or a close relative is foreign-born, it has been necessary to return to the Subject with a request for further info. To preclude this it is requested that this info be provided at time of submission of PSQ. Info to preclude "A" number, certificate number, date and court of naturalization should be provided on the Subject, spouse, parents, and siblings who are naturalized U.S. citizens. In the event one of these is not naturalized, the alien registration number, date and port of entry plus citizenship intentions should be provided. This info may be attached to the PSQ on a separate sheet. Your cooperation will be appreciated.

Regards,

15/

John
